

April 19, 2017 Hearing opened at 8:55pm NOI from Stuart and Pam Mulford, 71 Russell Hill Rd.
Prepared by Doug Smith of SoilSmith, as a continuation from March 15, 2017

DEP #93-359

This is a revision of the prior plan submitted predicated upon comments and suggestion received from the Fitchburg Water Department, an abutter to the project.

Notifications did not go out the abutters. Doug Smith will have to send these out and **submit the actual page for the advertising.** Found the original advertising for the first hearing date.

The Mulford's submitted the certificates for the certified mailing to abutters.

The site of the new house has been moved out of the 100 ft buffer. Now have a planting plan for the 100 ft buffer. All plantings will be at least 4 ft high and some may be taller. 11 plantings of Balsam Fir, Eastern Hemlock and high Bush Blueberry.

All new construction will be outside the 100 ft buffer except for part of the new driveway connecting the new driveway to the old driveway.

Motion to close the hearing at 9:04pm. Vote was unanimous in favor of the motion. Cathy will write the Order of Conditions.
